## WORK TO BE RESUMED.

Mess. J. A. Brannon and John Ledger, arrived from Pennsylvania yesterday, to superintend the resumption of work on the Ardmore Coal mines. The gentlemen are scientific mining experts and will proceed at once to start the large diamond drill, which is now on the ground. This preliminary work is for the purpose of locating the veins and determining their thickness and the quality of the coal. Mr. Brannon was seen by the reporter for this paper. He expresses the greatest confidence in the richness of the properties of the Ardmore Coal Company, and says they will be worked on an extensive scale as soon as the prospecting work is completed, and that Ardmore coal will warm Ardmore houses before the present winter is over. That this resumption of work will bring about a degree of prosperity much desired and heretofore unknown in our midst is beyond question. The Ardmoreite welcomes Messrs. Brannon and Ledger to our midst, and bids them God speed in the good work which they have undertaken.

Her company is kept at the highest standard. Her appearance at the opera house next Thursday night will be the signal for a large audience.

Mrs. Yung Yu is one of the small-footed Chinese aristocrats, and is consequently much of a pedestrian.
